WHAT CLIENTS ARE SAYING

MYLENE HENRY

Charlotte is simply incredible. The whole experience was brilliant from start to finish - she should get 10 stars! Charlotte has an eye for highlighting beauty and makes you feel so beautiful. She is professional, efficient, friendly and, oh so talented.

She is just the ultimate photographer. She understands exactly your idea of what you want your pictures to look like. Even better, she takes your idea and makes a masterpiece from it. I could not recommend Charlotte enough. Everyone should have the chance to pass a couple of minutes in front of her lenses.

PIPPI NORIN

I have had the most transboundary experience, participating in a professional photoshoot with hair, makeup, clothes, lighting and of course a fantastic photographer, Charlotte, who guided me through an intense session with a firm hand and steady camera. Even though I really do not like having my picture taken, Charlotte made me feel relaxed in a safe environment and actually ending up liking it.

Everything was efficient and smooth from initial contact, through the photo session to the end result. A result which really blow me away! It was better than I dreamt about. I absolutely recommend making a shoot with Charlotte, it will transform you!

KRISTIN ANNE WOODLEY

I had a glamour photoshoot with Charlotte and it was a very professional and exceptional experience for me. I truly was the star for a day and I felt simply gorgeous. Charlotte and her staff are such lovely people, creating a very comfortable environment and a photoshoot full of laughter and fun.

However after the photoshoot, I noticed a change in the way that I see myself. These last few mornings after I've woken up and looked in the mirror, I've thought things like "looking good" and "nice skin" - small little compliments that just came out of nowhere! Normally when I see my face in the morning, my thoughts are related to how tired I look or how my wrinkles are so noticeable etc. I was shocked at this change! I know my face looks the same, but I truly do see myself differently.

Thank you, Charlotte.

EVELYNNE VAN OVERVELD

I have had the opportunity to have a glamour photoshoot with Charlotte. It was amazing!! Charlotte is a warm, friendly, patient and super professional photographer. I felt pampered throughout the whole experience. The hair and make up artist did a fabulous job and Charlotte created the right atmosphere to make me feel relaxed, confident and beautiful. With her small directions on how to pose, it was easy to do and a lot of fun. I enjoyed every moment of it! And the photos are breathtaking, every single one of them. I will cherish them forever!

MONA WIE

Charlotte is an extremely professional artist and photographer. The emotions that she radiates can be converted into your photos. She is extremely talented, has a strong passion and a tremendous creativity. Already during the planning of each individual photo she already has the finished result in your head. That is awesome, which intermediate steps are decisive for them to shoot the perfect photo. We had a super connection, a very special spirit, a deep warmth and charisma between us.

Everyone book Charlotte, she is fantastic and knows exactly what it takes to get the special, very special photo. Charlotte has enormous empathy and is an artist with enormous passion and mastery and professionalism to the highest degree. If you need a photographer book Charlotte, you'll have the best photos, nothing less than fantastic This is professionalism. Dear Charlotte, very special thank you for everything. It was a special challenge and experience for me to work with you. You gave me very special moments that are stored in my heart and these are reflected in the photos! We will be working together again for sure, Thank you dear Charlotte for your awesome Talent. Thank you dear Charlotte for this great implementation.

MARIANNE SEIFERT

Since many years I am an addicted fan of Charlotte and her photos of my children.

The glamour photos of me and my daughters was a MUST! We girls no matter if teenagers or a little older often focus on our weaknesses and we always have the magazines in our mind, when we evaluate ourselves.

On this occasion we had the opportunity to be a part of a glamour world and we loved it. The photos does something very positive to us and our own self-assessment.

Charlotte is professional and it is so easy to be in front of her linse. You never feel awkward or in the wrong place. I can only suggest all mothers and daughters to do this together!

MAGALI BRAET

Magali Braet reviewed Starupphoto I loved the experience of being model for one day! Being pampered with hair and make up and feeling like a queen in beautiful clothes. Charlotte is super professional and is great at making you feel relaxed in front of her camera. At start you feel a bit uncomfortable (unless you're a model for sure!) but very soon I felt like a professional thanks to Charlotte's instructions on how to move and smile! The result is that I have now a collection of great pictures which I will treasure forever! An experience everybody should have! First time, definitely not last time!

CAROLINE WOLTERING REINCKE

I had a glamour shoot with Charlotte to celebrate my 59th birthday. The pictures are just amazing! So happy with the result...It's truly an ego boost. Charlotte is very professional and fun, I had a great time being a model for a day!

Nadine did a fabulous job with make up and hair.

Can recommend this shoot to everyone!

CELEBRATE THE BOND WITH YOUR CHILDREN

I know that a lot of us sometime do not feel beautiful enough to be photographed. When I look through many family albums I see mom missing in so many moments with her children because she avoided the camera. We age, and our bodies change but all our children see is how beautiful we are and that should be celebrated!

Exists in portraits! Because when we're gone those pictures will be the most important legacy we can leave the children—moments of a beautiful life together captured in portraits.

Create priceless family heirlooms with a mother and daughter portrait session, or if you're lucky enough — gather multiple generations. Schedule a session every year to celebrate your beautiful relationship and watch each year as your daughter grows into a beautiful, confident young woman. Get all dressed up and have your hair and makeup done. Create something that you and your child will remember and cherish for the rest of your lives and spend an amazing day together making memories!

"In a child's eyes, a mother is a goddess. She can be glorious or terrible, benevolent or filled with wrath, but she commands love either way. I am convinced that this is the greatest power in the universe."

- N.K. Jemisin

CREATE FAMILY MEMORIES

LIKE FAMILY,
PORTRAITS
ARE A LEGACY

A Family Portrait is a lasting memory, a legacy if you will. Beautiful images of the way we are with together as a families and they form a priceless treasure for us to reflect on in future years. In 20 years, your children will look for photographs of their family, to show the next generation. To be nostalgic or simply just to reflect back on memories with you.

Give your loved ones the perfect gift of seeing your family as they grow

together. You have heard that pictures speak a thousand words. Well, you can create moments to be treasured for generations to come.

Every member of the family gets the portrait experience... brothers, sisters, even the family pets! Every combination is taken so that you have a wide selection of memories from the day.

A custom portrait session includes a free invite for your husband, partner, children to join the last part of the session. Let's discuss this possibility when we meet to design your dream photoshoot.

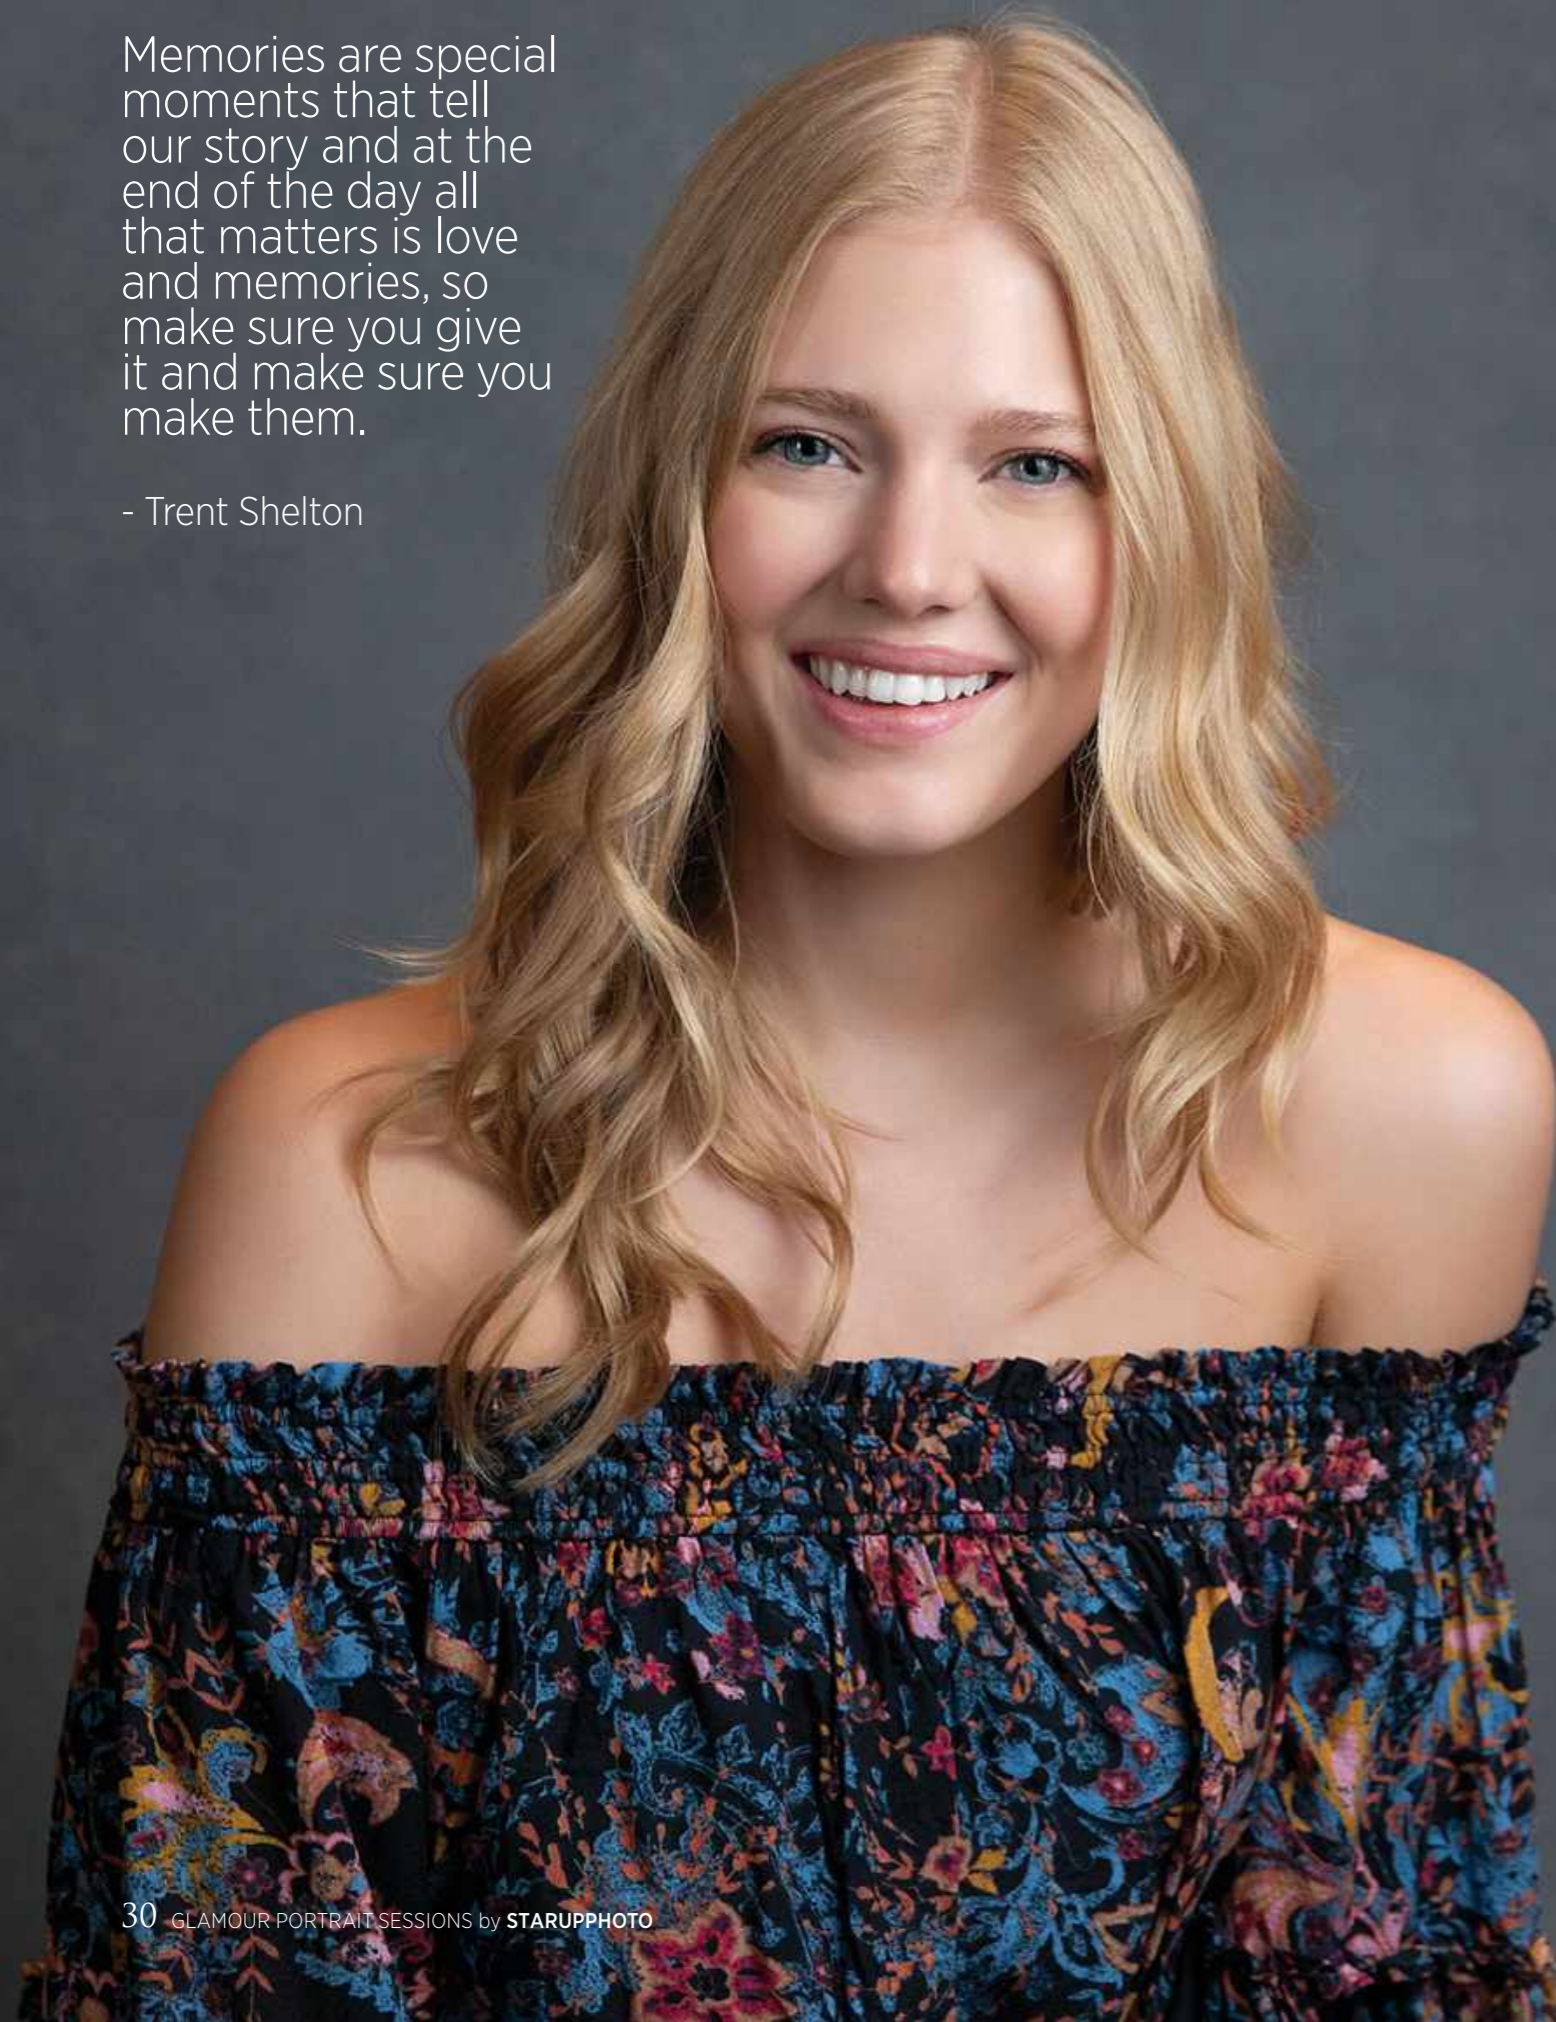

The greatest legacy we can leave our children is the portrait of the beautiful life we lived with them.

“My passion is to help women love and accept themselves, make them feel beautiful. I want to show especially women thinking of themselves as not photogenic, too heavy, too old and wrinkled that they are beautiful. I want to show them through my portraits.”

I specialize in photographing everyday women in a Vanity Fair Magazine style. My passion is to help women love and accept themselves, make them feel beautiful. I want to show especially women thinking of themselves as not photogenic, too heavy, too old and wrinkled that they are beautiful. I want to show them through my portraits. I want to give them an experience either alone or with their children, family or friends. My favorite client is the mother who looks through her family albums and sees she is missing because she avoids the camera or is always behind the camera.

With the help of a stylist and great posing, they, too, can look like someone stepping out of a magazine.

I speak from experience. I was the woman behind the lens and hardly ever in front of it. As we grow older, we start to “fear” being exposed to ourselves. My own portrait session changed that. I was shown the real ME, the woman that I had forgotten existed. The woman, the mother, the wife, the business owner. Not only does my family treasure the images, but, by allowing myself to exist in photographs, I have become stronger and more confident.

I want every woman to feel the way that I did in my session, and I want to empower women with my portraits of them.

I am a Master Photographer and have won 65 awards at the “The Portrait Master Competition” in the USA.
